DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 4, the sixth line after the formula (IV), the term "R2" has been replaced with the term "R₂".

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: This application teaches an ink jet ink comprising at least one first metal complex black dye that when printed alone on a receiving element gives a CIELAB a* value > 0 and at 1.0 Status A visual density; at least one second metal complex black dye that when printed alone in a receiving element gives a CIELAB a* value < 0 and at 1.0 Status A visual density and at least one yellow azo-aniline yellow dye or metal complex yellow dye or mixtures thereof. The closest prior art of record is WO 02/094943 (US 2004/0128775 is English equivalent), which teaches dye mixtures consisting essentially of one or more dyes of the formula (4) such as Reactive Red 23, one or more dyes of the formula (5) and optionally a yellow dye such as Direct Yellow 86 or Direct Yellow 132 but fails to

teach or fairly suggest a combination of two black metal complexed dyes as claimed by applicants.

Applicants should note that the examiner has cited U.S. Patent Application Publication 2005/0229810, issued to Blease et al. however no rejections have been made over this reference since the filing date of the above reference is after the filing date of the instant application (i.e. no 102(e) rejection). The only possible rejection would be an obviousness type double patenting rejection and as per MPEP 804, if this is the only remaining rejection the earlier filed application should be passed to issue. Accordingly, this application is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helene Klemanski whose telephone number is (571) 272-1370. The examiner can normally be reached on Monday-Friday 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (571) 272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
